How can I Avoid Paying Interest Charges? Each month you pay your "New Balance" in full, you will have a minimum grace period of 25 days with no interest charge on all new 1) purchases, 2) balance transfers, 3) special purchases and 4) other charges. If you have been paying your account in full with no interest charges applied and you do not pay your next bill in full, prorated interest charges will be assessed. There is no grace period on cash advances, special transfers, or on any new transaction when there is an unpaid balance from a previous bill.

How is the Interest Charge applied? Interest charges accrue from the 1) date of the transaction, 2) date the transaction is processed or 3) first calendar day of the billing period. Interest charges accrue on every unpaid amount until it is paid in full. This means you may owe interest charges even if you pay the entire "New Balance" one month, but did not do so for the previous month. Unpaid interest charges are added to the proper segment of your Account. However, we reserve the right to not assess interest charges at any time.

Do you assess a Minimum Interest Charge? Yes. A minimum INTEREST CHARGE of \$0.50 will be assessed for each billing period your account is subject to an interest charge.

How do you Calculate the Interest Charge? We use a method called Average Daily Balance (including new transactions). Under this method, we first calculate your daily balance; for each segment, 1) take the beginning balance and add in new transactions and the periodic interest charge on the previous day's balance, then 2) subtract any payments and credits for that segment as of that day. The result is the daily balance for each segment. However, if you paid your previous month's balance in full (or if your balance was zero or a credit amount), new transactions which post to your purchase or special purchase segments are not added to the daily balances. Also, transactions that are subject to a grace period are not added to the daily balances.

Next, to find your Average Daily Balance: 1) add the daily balances together for each segment, and 2) divide the sum by the number of days in the billing cycle.

At the end of each billing cycle, we determine your Interest Charge as follows: 1) multiply your Average Daily Balance by the daily periodic rate (APR divided by 365) for that segment, and 2) multiply the result by the number of days in the billing period. NOTE: Due to rounding or a minimum interest charge, this calculation may vary from the interest charge actually assessed.

How can my Variable Annual Percentage Rate (APR) change? Your APR may increase or decrease based on one of the following reported indices (reported in *The Wall Street Journal*). To find which index is used for your account, look for a letter code on the front of this statement next to your APR(s). Then check the table below:

Code next to your APR(s)	How do we calculate your APR(s)? Index + margin (previously disclosed to you)	When your APR(s) will change
P L	Prime Rate + margin 3 month LIBOR + margin	The first day of the billing periods that end in Jan., April, July, and Oct.
D F	Prime Rate + margin 1 month LIBOR + margin	The first day of each monthly billing period.

Are there Additional Fees associated with my account? Yes, under certain circumstances, you may be assessed a Late or Returned Payment fee. You may also be assessed Overlimit fees if permitted by law. We reserve the right to not assess fees without prior notice and without waiving our right to assess a similar fee later.

How can I Avoid Membership Fees? If a Renewal Notice is printed on the front of this statement, you may avoid paying an annual membership fee by contacting Customer Service no more than 45 days after the last day in the billing cycle covered by this statement to request that we close your account. To avoid paying a monthly membership fee, contact Customer Service anytime to request that we close your account, and we will stop assessing your monthly membership fee.

How can I Close My Account? You can contact Customer Service anytime to request that we close your account. At that time, we'll explain any additional steps to account closure, including balance pay down information and timelines.

When will you Credit My Payment?
