Thank You For Your Purchase of SpyHunter!

Your credit card has been charged \$42.90.

Important information regarding your purchase has been sent to your email address.
Please read all information carefully.

PLEASE DO NOT RE-DOWNLOAD SPYHUNTER IF YOU HAVE THE FREE VERSION INSTALLED ON YOUR COMPUTER. YOU ONLY NEED TO FOLLOW THE INSTRUCTIONS BELOW TO ACTIVATE AND UPDATE SPYHUNTER.

SpyHunter Activation Instructions and Account Information:

1. DISABLE ANY FIREWALL software program running on your computer, such as Norton Internet Security, McAfee, Zone Alarm, AVG and others. They might interfere with the activation of SpyHunter. You can turn your firewall back on after the activation is complete.
2. Open the SpyHunter program and click the "Settings" tab (located on the left side menu of SpyHunter).
3. Enter your username (email) and password as described below and click the "Activate Now" button.

****USERNAME: rodlarson100@yahoo.com**

****PASSWORD: rodneylarson**

NOTE:

THE PASSWORD IS LOWER CASE.

IT WILL GENERALLY BE YOUR FIRST NAME AND LAST NAME (WITH NO SPACE BETWEEN THEM).

The username and password above are necessary to obtain product updates, technical support, and access to the member section of our site:
<http://www.enigmasoftware.com>

If you have problems activating SpyHunter, please click on the link below for support:

SpyHunter Definitions Update Instructions:

By default, SpyHunter is preconfigured to automatically download and install updates. If you have disabled this functionality and would like to re-enable it, just follow the instructions below:

1. Click the "Settings" tab (located on the left side menu of SpyHunter).
2. If it is not already checked, click on the "Automatically check for updates" checkbox.
