Great thread Pascal. What book did you get the markings from?

Hello

You can find the markings here :

Re: Luftwaffe emblems photos

Hello,

I'm sorry, but I am not sure what we have gained here by cutting, pasting and scanning these well-known Verbandskennzeichen and airplane photos from other websites and books and re-installing them here? I am also a little confused over the violation of this website's Rule 1 (item 6 from the top) and Rule 7 (Posting Images). It has always been my understanding that each drawing and photo taken from published and website sources is to carry a credit citation identifying where it came from. Has this rule been rescinded or relaxed? If so, shouldn't the members here be notified?
