This is a living post. Check post #1 every two weeks for additional content.

I am providing to you free of charge over 140 unit emblems. Some I did not make so not all featured will be present. That's okay it only makes up like 3% of the package. I hope you all enjoy using them. Please do not claim my work as your own. I will be able to tell and I will call you out and cancel this whole thread for just one bad apple. So, happy skin creating guys enjoy!

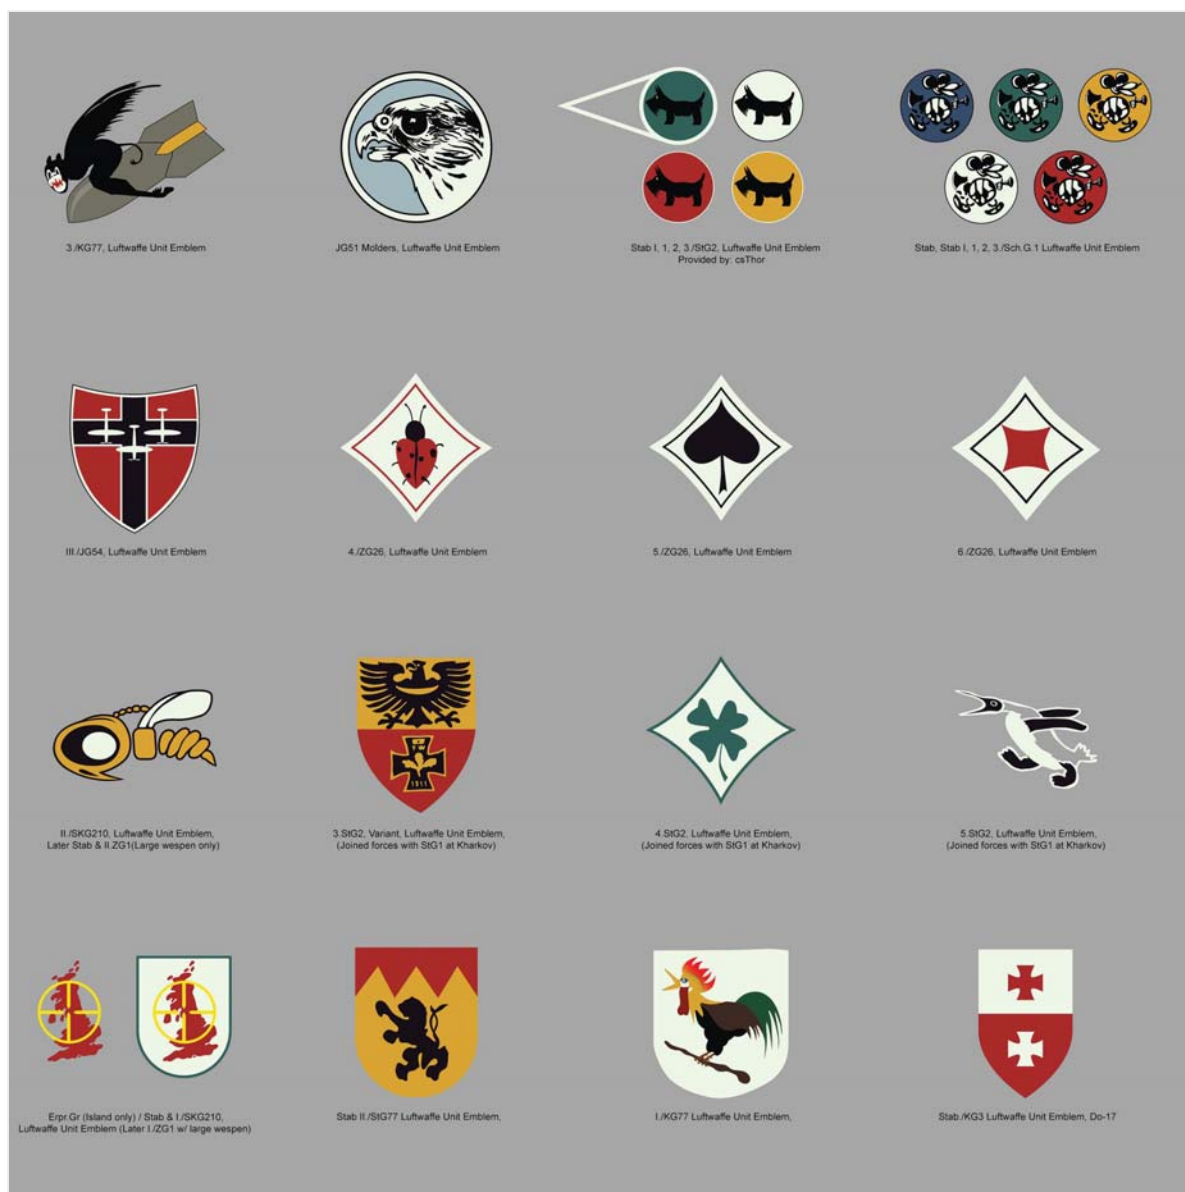

CLICK ON IMAGE FOR FULL SIZE .PNG

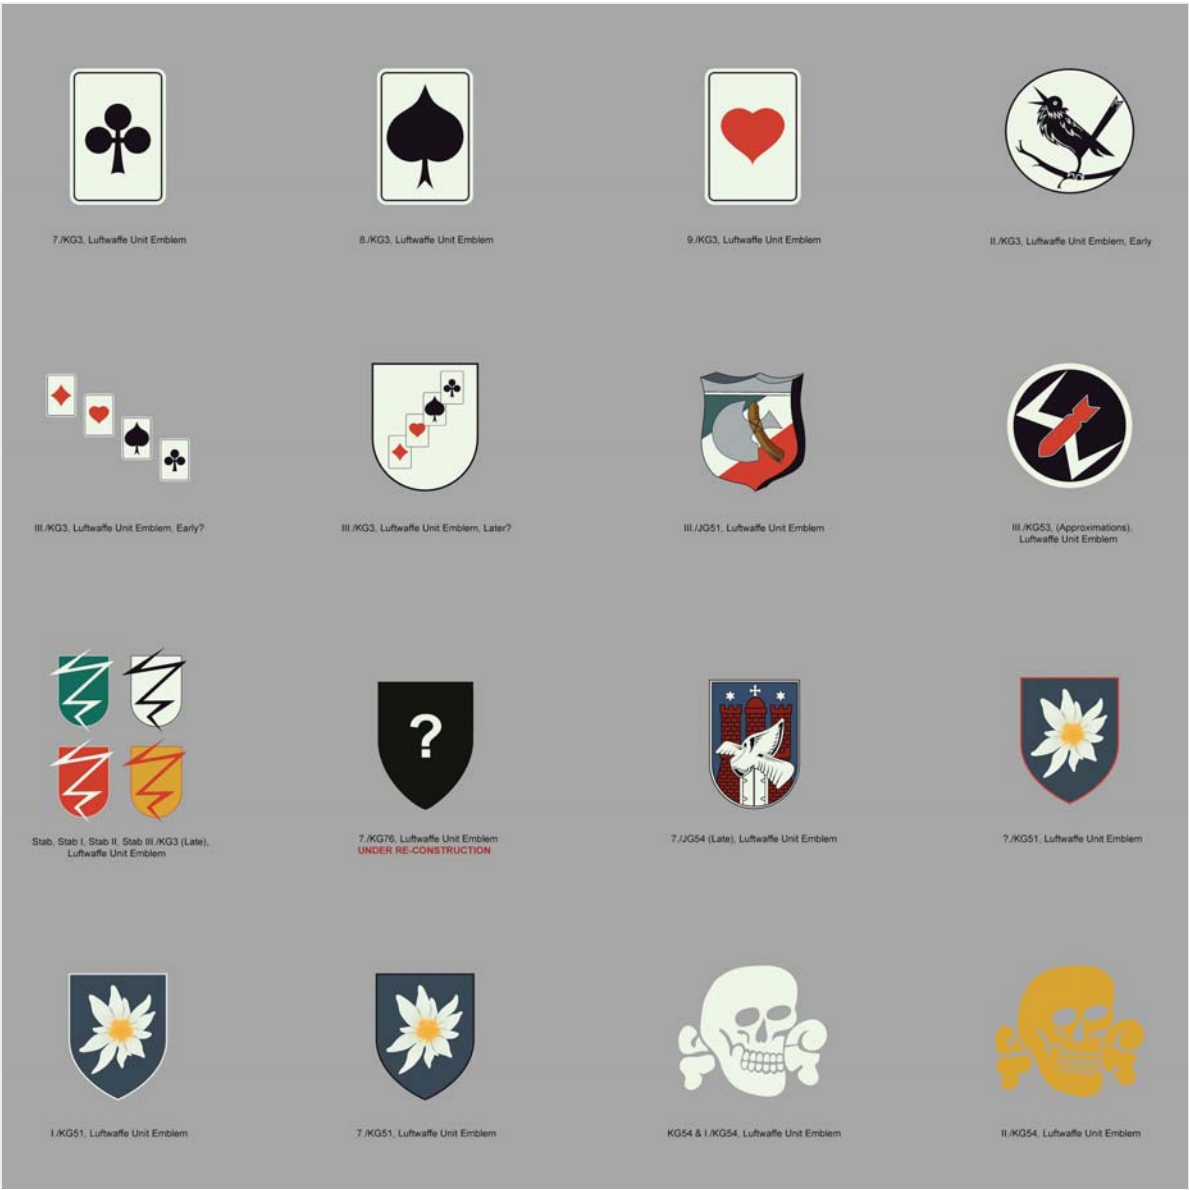

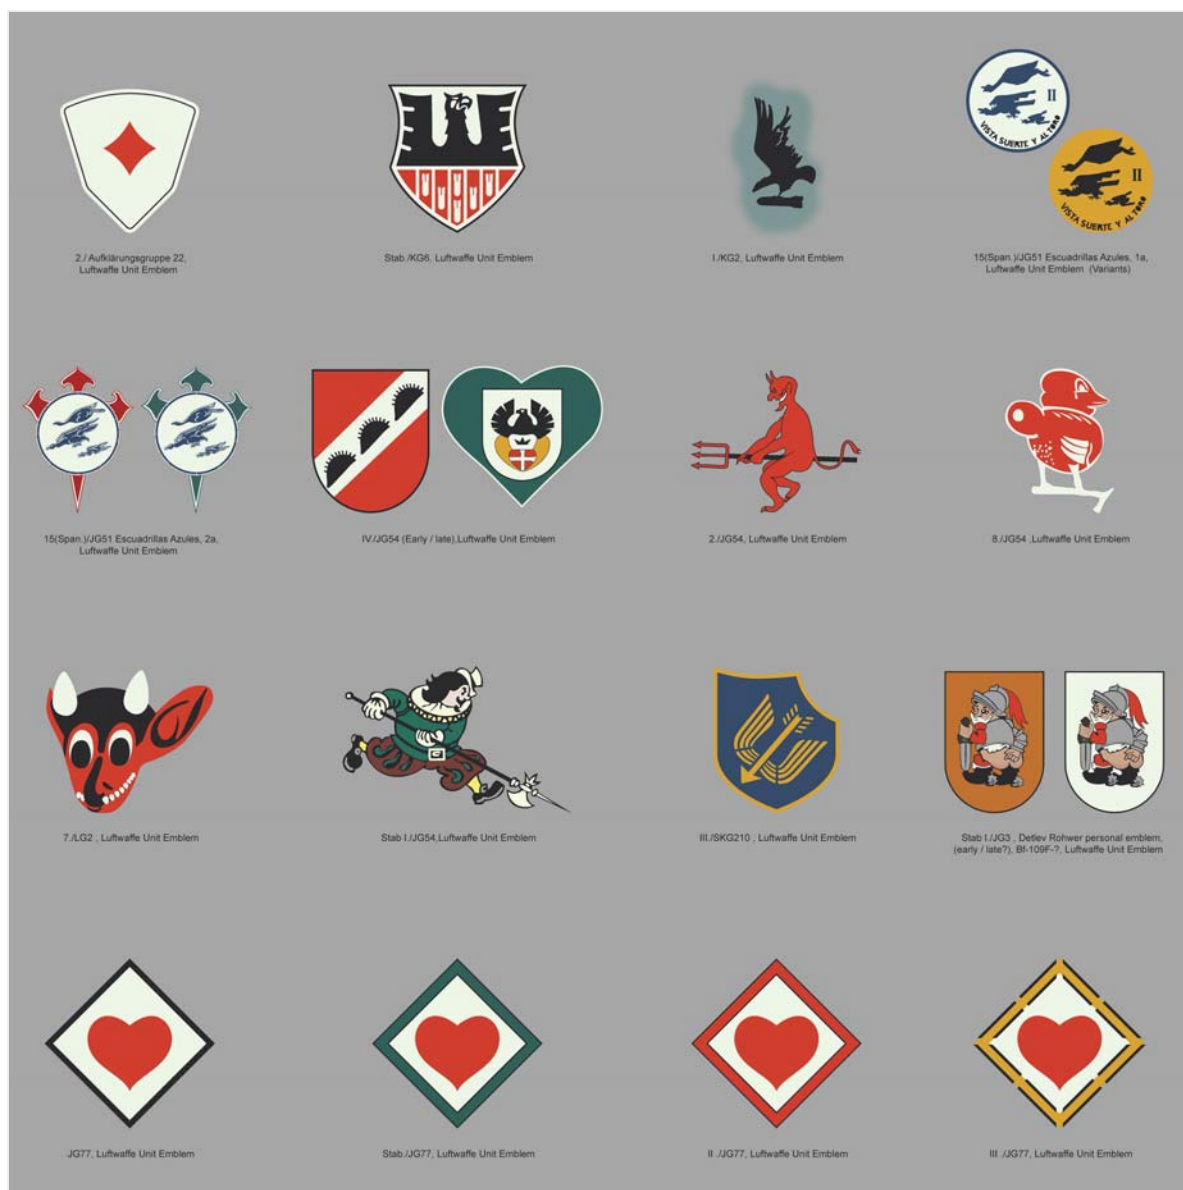

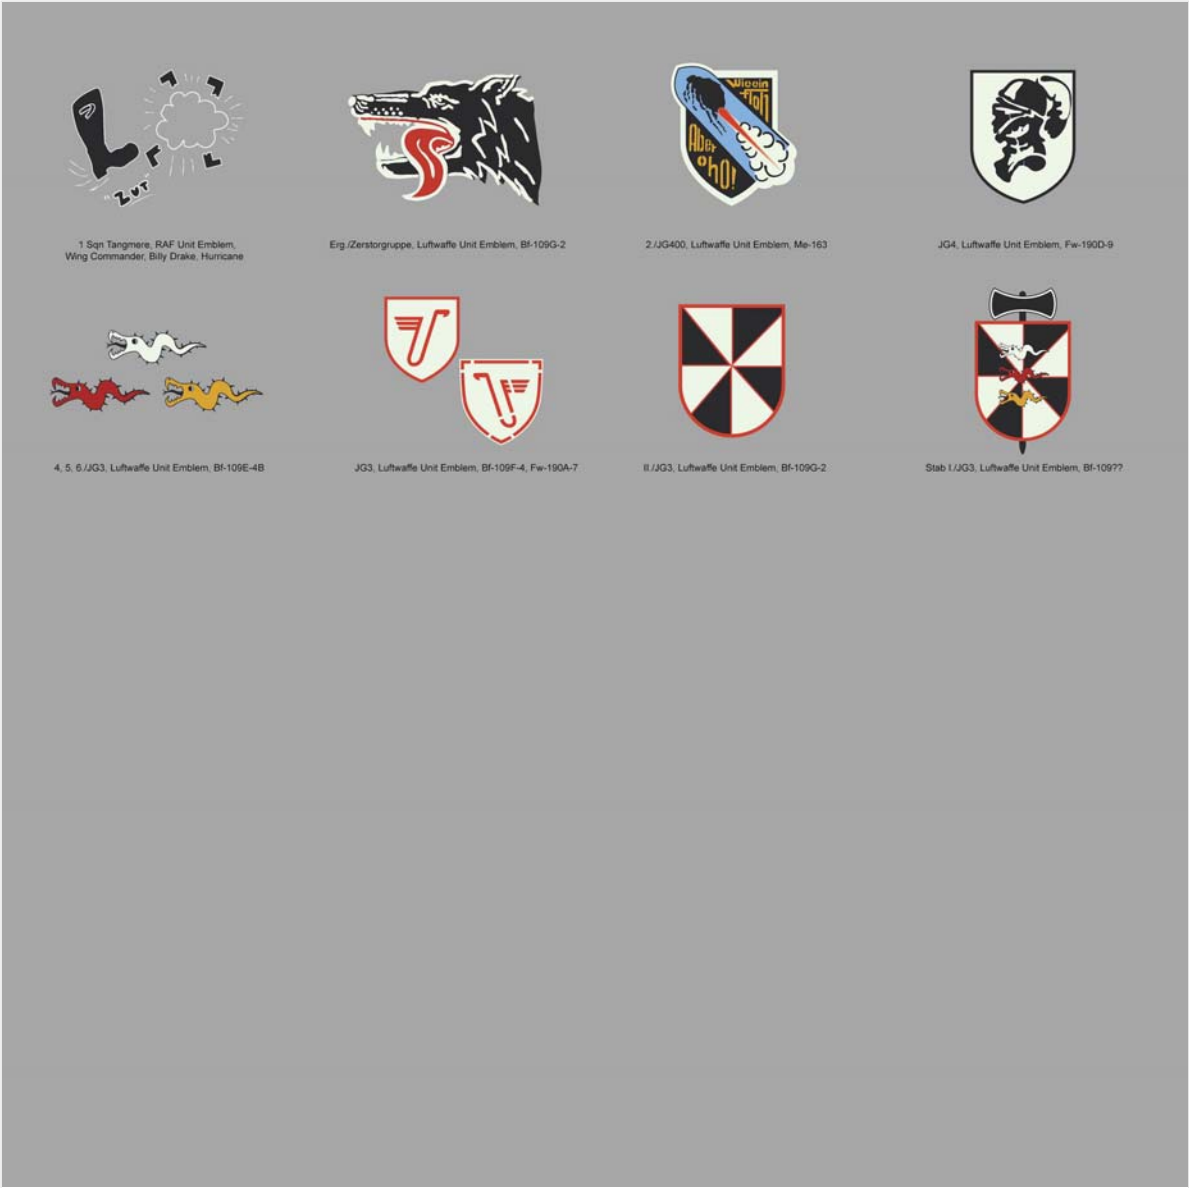

I realize that some of the blacks are super black. That will be fixed in the next update.

Great Stuff SPEKTRE, very nicely done!

I like 1./KG76's pistol-packing devil! :lol: who said Germans don't have a sense of humour.

Thank you for this contribution!

I downloaded your emblems a few days ago from WoP forums if I remember correct.

Nevertheless, this pack will surely going to help me in skinning.

I am looking forward to more emblems.

P.S I surely hope that this thread will attract Gaijin attention, it would be wonderful to see all of those decals in the game so everyone could see them :D

P.S.S

Is there any chance of these emblems be released in .psd or .png?

These are fantastically done, did you use a vector-based software like illustrator right?

Hi. This is good job and looks nice but anyone can help me put that insignia to the game please? I have no idea how to do it.

You open it in Photoshop or other photo editing software. The crop out the emblem you want and erase all of the surrounding grey area. In Photoshop you just use the 'Magic Eraser Tool'. Save as a .png and put your emblem on a new layer in your skin .psd.

You can't put them in game because they are not coded. You can only put them on custom skins that you make for personal use.

These are fantastically done, did you use a vector-based software like illustrator right?

Yes Illustrator CS6.

Still making top notch work, Spektre.

Glad to see that you are still around this community and contribute with wonderful and realistic skins/insignias :D

Keep it up! We all appreciate what you are doing.
