

Bf 109 losses in Channel Coast Operations

Bf 109 losses in Channel Coast Operations

Partial Jagdwaffe Loss Listing for Channel Coast Operations. The following list is by no means comprehensive; there are nearly 300 Bf 109s in this table, but these are only the ones for which complete or nearly complete information exists, such as subtype, WNr, pilot, unit, markings, date of loss, reason for loss, location of loss, and any additional details. This list has been selected and offered to aid the modeler in choosing less well-known subjects; while Luftwaffe camouflage is always subject to interpretation, often times aircraft within the same Staffel or Gruppe would have the same basic camouflage and marking schema, such as 7/JG 26's habit of carrying the aircraft number beneath the windscreen. Any errors in translation or data lie solely with the author.

JG 2 Losses								
Date	Type	W.Nr.	Name	Unit	Code	Reason	Location	% Damage
10.05.41	Bf 109E-7	6254	Adrian, Oblt. Ulrich	1./ JG2	white 3 +	Stkp. Killed in crash during test flight	Kernicis near Brest	100%
