| +63-906-277-4003 | Cell Phone in Maasin                                      |
| +63-53-570-9048  | Land-Line in Maasin                                       |

## Work to be Performed:

1. Support system troubleshooting and performance refinement with a MTS Engineer and MTS Application Engineer on the Xian Seismic Table System.  
(1 Week)
2. Provide training to customer personnel (test engineers and operators) for hands-on Seismic Test execution using a flexible (resonant) specimen. (2 weeks)

Starting date for work to commence is tentatively set for June 25, 2012.

## Deliverables:

1. System support and performance refinement to satisfaction of MTS Engineer.
2. Training and use of system for test of flexible specimen acceptable to Xian customer.

## Rates/Payment Terms:

See attached Rate Quotation from Far East Controls LLC.

**NOTE:** Far East Controls suggests that airfare and hotel be paid direct by MTS to facilitate easy co-ordination with MTS personnel travel. Far East LLC will also deduct daily per-diem rate from this trip's expenses to compensate for this allowance.
